Julian Chichester has offered a bespoke furniture service for over 20 years. Its experienced in-house design team can help with customisation of an existing design or work together with a client to create something entirely unique.

Having its own manufacturing capacity means that high volume rollouts or specialist industry requirements, such as for Hospitality or Yachts, together with their stringent durability, fire and safety tests, are all a matter of course.

The Angel Chest inspired this bespoke elevating TV Cabinet.

Julian Chichester is constantly evolving new finishes and using materials in innovative ways, from metals, woods and faux shagreen to other artisan-crafted options, which include Leathers, High Gloss Vellums and Faux Gesso.

Many of the finishes have natural variations in colour and appearance which are an integral part of their beauty, or can look different because of how they reflect light. It is these differences which makes each piece unique.

**NOTES ON FINISHES**

BRONZE and GESSO are hand applied and are therefore unique in both appearance and texture.

BRASS, BRASS WRAP & VARIEGATED NICKEL are moulded and beaten by hand and are therefore unique in both appearance and texture.

QUARTER SAWN BLEACHED OAK has a fresh natural appearance with flecked medullary rays. Due to the level of tannin content in each piece slight variations are inevitable.

VELLUM & LEATHER are natural skins with no two pieces exactly alike, therefore variation in shade and tone are inevitable and may change over time.
