JULIAN CHICHESTER

Consider a *Different* Angle

Change is in the autumn air, bringing to life a new selection of designs with a difference. This season there's a strong lean into Limed Oak, and here's why...

Two years ago, Julian purchased a beautiful 1940s French desk whilst in the US. Its finish was simply stunning—cozy and warm, a subtle off-white limed treatment on straight, tight-grained quarter-sawn oak.

Starting with a high-quality French veneer, our factory worked hard to achieve the same effect—and the effort was justified. We know you'll love the soft sheen of French Oak Limed and the deeper Dark Oak Limed finishes.
