

## ANTIQUÉ SCULPTURE - OUTDOOR

### ARCHITECTURAL HERITAGE

An early-18th-century manor house in the Cotswolds makes a seductive location for this company. The bucolic grounds are dotted with decorative and functional pieces, from 17th century to contemporary. Restoration and valuation services are offered, and pieces are also made in the large workshops onsite.

## ARCHITECTURAL SALVAGE

### LASSCO

Not far from the swirl of traffic at Vauxhall Cross is Brunswick House, the central London branch of Lassco. This restored period home is a temporary resting place for some of London's fanciest salvage finds, and a sister site to two other Lassco locations.
