Albion bath - 2 years manufactured

Albion's founders had a mission - to create the ultimate bath tubs. After two years of development, Albion had it sorted. A new material was created from an amalgam of high technology resin and a special reinforced mineral. Manufactured in our Essex factory, this material was named Iso-Enamel. To this day, our special process is unique and offers benefits that other materials cannot provide. So what's so good?

- An Albion bath is less than half the weight of a cast iron bath. The average weight of our baths is 70kg.
- Your bathing water will stay hotter for up to five times longer.
- Clean an Albion bath with all modern liquid cleaners.
- An Albion bath has a hard, high gloss interior that gives years of sterling service.
- Customise the bath exterior with any colour.
