Beautiful furniture that will never go out of style

CREATORS OF TIMELESS FURNITURE, Julian Chichester is primarily an individualist - a tastemaker rather than a follower.

The contemporary British designer creates exquisite home furnishings, drawing inspiration from classic English furniture making, coupled with an admiration for innovation.

As a manufacturer, the company has an enviable reputation for quality craftsmanship and original design, but the decoration, detail and unusual finishes are the elements that really set them apart from the crowd. This is furniture with a personality. Expect must-have classics mixed with new designs. Julian Chichester pieces look stunning in any contemporary space and equally as covetous amongst treasured antiques.

Damp endangers your before it takes over

DAMP AND MOULD CAN DAMAGE YOUR PROPERTY, your possessions and your health. Left unchecked damp eats away at building materials until the structure itself is no longer safe. Long before

then, increased moisture creates the perfect conditions for mould to thrive.

According to warnings from the NHS, mould spores can also cause or aggravate:

- allergic reactions
- skin irritation
- asthma attacks
- respiratory infections.

Mould is the symptom but damp is the disease. If you clean, paint or plaster over mould without treating the damp at its source, it will come back.
