

JULIAN CHICHESTER

Looking at design with an eye for detail

As a manufacturer, we create everything from a single bespoke item to high volume rollouts. Specialist finishes and innovative materials give our designs a fresh contemporary contextualisation, and can be made-to-order to accommodate TV and media housings, minibars or fridges, as required. Checks for safety, strength and durability, surface and weight testing are all carried out by industry specialists, which is why Julian Chichester's innovative designs are found in many independent boutique hotels, spas, resorts and prestigious hotel groups worldwide.
